PROFESSIONAL SUMMARY

Final-year B.Tech Computer Science and Engineering student graduating in 2026 with hands-on experience in React.js, JavaScript, HTML, CSS, Tailwind CSS, and MySQL. Developed and deployed 10+ web applications including client projects, finance dashboards, and business websites. Experienced in API integration, responsive web development, Git/GitHub workflows, and delivering real-world solutions. Seeking an entry-level Software Developer or Web Developer role.

EDUCATION

Cooch Behar Government Engineering College – MAKAUT

2022 – 2026

B.Tech in Computer Science and Engineering

CGPA: 6.75/10

Barala Ram Das Sen High School (H.S.) – WBCHSE

2020 – 2022

Higher Secondary Education

80%

DEVELOPMENT SKILLS

- Built and deployed 10+ responsive web applications using React.js, JavaScript, HTML5, CSS3, Tailwind CSS, and Bootstrap.
- Developed reusable React components and responsive user interfaces optimized for desktop and mobile devices.
- Integrated REST APIs and external services to build dynamic and real-time web applications.
- Implemented CRUD functionality, browser storage solutions, and modern frontend development practices.
- Used Git and GitHub for version control, project management, and deployment workflows.
- Managed complete project lifecycles from planning and development to testing, deployment, and maintenance.
- Maintained 20+ repositories and deployed 10+ live web projects using GitHub Pages and modern frontend technologies.

PROJECTS

Smart Waste Segregation System (Final Year Project) — *Python, TensorFlow, OpenCV, Arduino, NumPy*

2025 – 2026

- Built an AI-based waste classification system using Python, OpenCV, TensorFlow, and Arduino integration.
- Developed a CNN model to classify biodegradable and non-biodegradable waste using real-time image inputs.
- Integrated Arduino-based automation for intelligent waste segregation and improved waste management efficiency.

FinanceTrack Dashboard — *React.js, JavaScript, Tailwind CSS*

2026

- Developed a financial tracking dashboard to monitor expenses, investments, and SIP returns through an intuitive user interface.

Green House Cafe (Client Project) — *React.js, JavaScript, Tailwind CSS*

2025

- Secured the client through direct outreach, gathered requirements, developed the website, and successfully delivered the final product as a paid freelance project.
- Built a fully responsive restaurant website with SEO optimization and WhatsApp ordering integration.

Make Dream Agency — *React.js, JavaScript, Tailwind CSS*

2025

- Developed a modern agency portfolio website showcasing services, projects, and client offerings with responsive design and clean UI/UX.

World Food Encyclopedia — *React.js, JavaScript, CSS*

2025

- Developed a nutrition-focused platform containing information for 1,000+ food items and implemented technical SEO practices for improved search visibility.

TECHNICAL SKILLS

- **Programming Languages:** C, C++, Python, JavaScript, SQL
- **Frontend Development:** React.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Web Design
- **Database:** MySQL, MongoDB (Basic)
- **Tools:** Git, GitHub, VS Code, Chrome DevTools, Netlify, Firebase (Basic)
- **Concepts:** Data Structures, Algorithms, OOP, DBMS, Operating Systems, Computer Networks
- **Other Skills:** REST API Integration, Problem Solving, Team Collaboration, Client Communication
